"Working Collaboratively, Thinking Critically, Achieving Academically"

The Future of 4th Grade

March 16, 2018

Plato Family:

You spoke and we listened! After hearing multiple comments and requests about the current 4th grade students remaining at the Primary Campus for an additional year, we sent out a survey for an official finding. Nearly 75% of the respondents stated that they would prefer for this to happen citing ease in transportation due to location, safety (both within and surrounding the school), convenience of family already attending the same school, familiarity with staff, and the strength of the curriculum.

As mentioned in the last letter, we explored the possibility of keeping our 4th grade students on board for another year so we are now implementing the changes necessary to make that become a reality. All you need to do is plan to be at the Primary Campus for another year.

The Primary Staff is overjoyed to know that you have placed your faith in our hard work and efforts and will continue to deliver on our promise to deliver a high quality educational experience.

Please let us know if you have any questions.

Truly,

Principal Williams
